

Hannah Brooke
Downing College MCR 2011/2012
Presidential manifesto

I will be a proactive, enthusiastic, positive and encompassing President of your MCR. I will strive to advocate your voice at college level, be responsive to feedback and reliable in all aspects of the job. I hope to increase relationships with the undergraduates and encourage graduates who are not living on site in College to attend events and feel included and welcome in the MCR. I will encourage open discussion and debate of matters of importance. I aim to keep members of the MCR informed about decisions made by the College and actively gather opinions and suggestions about such decisions. I will use my previous experience representing and leading my peers (as House Captain during my final year at school and as Student Representative on my MPhil course last year) as foundations to become a solid and proficient President. With the invaluable support of the rest of the committee I envisage providing you with a year of outstanding social events, improvements to graduate quality of life and strong representation within College. I hope you will support me now as I stand for election and, if I'm successful, then throughout next year in all that we try to achieve. Thank you in advance for your vote! Your (hopefully!) President-to-be, Hannah.
